

BEEZA

The Bold Way
To Make Time.

Got a taste for adventure? Want to streak away from it all?

Then fire up the new, '69 250cc Starfire. It's light and lean and a breeze to handle. Yet its got plenty of speed and torque so you can move out in a hurry. Down the highway or up into the hills.

Best of all, Starfire gives you the wildest styling on two wheels. There's the unique black engine. The glistening upswept pipe. And the brilliant orange tank with gold racing stripe.

Also new for '69 is the full-width, double-leading shoe front brake. For stopping power that gives you extra control and safety.

Starfire. 250cc's of economical, reliable fun. The most spectacular lightweight on the road.
