

A breed apart.

The Trophy 250

The little Triumph with big bike performance. All of the competition-bred features that are a Triumph tradition in a trim, lightweight package. The 250 can show you what riding pleasure really is.

A brilliantly engineered single cylinder, four stroke power plant provides steady, dependable pulling power. A 28mm Amal concentric carburetor for precise fuel metering. A super-smooth transmission makes gear changing a positive pleasure. The uniquely efficient exhaust system incorporating a new heat-shielded, up-swept pipe gives the Trophy 250 a

with-it...rakish look. The superior suspension system, together with an advanced frame design, assure extremely responsive handling.

Everything you've come to expect from the world's leading manufacturer of high-powered, cat quick, reliable motorcycles has been bred into the Trophy 250. And you'll know it the minute you set eyes on it.

If you're ready to give up your training wheels, you're ready for the Trophy 250.

THE TRIUMPH
